“Am on the top of the world looking down on creation, and the only explanation I can find, is everything that I experience, breathe and live while I am here”.

Estate 33 is an escape for those wanting to spend time with their families, or loved ones, or a group of friends!

The heated infinity pool has my heart; the pool has its edges facing and touching the boundaries of a hill top, making you watch wonders!

A perfect staycation; and in the new era of Travel, I'd say its a blissful home away from home.

There is a fire pit in the lawn for everyone to convene around & enjoy the evenings.

A four story building, is a story in itself with beautiful art on the walls!

Each floor with a surprise; the rooms are well appointed with modern fixtures, the living room has a cozy fireplace alongside the TV console & the pool table to keep you busy. The dining area has an 8 seater dining, apt for all to dine together.

Discover the experience that really fills in your soul with the sweet sound of wind, sunlight that surpasses, and trees that whisper with the sound of their intersecting leaves.

The balconies bring a beautiful view of the mountains, this can be enjoyed throughout the day.
